

ODI PEARL

Frontend Web & Mobile Developer

Nigeria (GMT+1) | pearlodi7@gmail.com | +(234) 7041240169 | [portfolio](#) | [linkedin](#) | [github](#)

SUMMARY

I am a Frontend Web & Mobile developer with 4+ years of experience building scalable web and mobile applications, integrating APIs, and creating performant, user-focused digital experiences with a strong emphasis on React architecture.

SKILLS

Languages	Web Frameworks	Mobile	UI / Styling	State and Data
JavaScript	React.js	React Native	TailwindCSS	Zustand
TypeScript	Next.js	Expo	shadcn/ui	GraphQL
HTML	Vue.js	Nativewind	Material UI	Apollo Client
CSS (Flexbox)	Astro			Redux / Pinia

PROFESSIONAL EXPERIENCE

Toks Net | [Live Site](#)

2024 - 2026

Frontend | Mobile developer

- Led frontend team in several projects, setting development standards, responsive component libraries, and structured code-review processes.
- Architected and shipped web + mobile versions of Aedion AI from initial feature design to production.
- Redesigned the workflow for Gv3n Marketplace site, scaling frontend engineering through component-driven development to ensure minimal code duplication through reusable components and modules.
- Collaborated with backend developers and design peers to optimize layout performance and maximize cross-browser responsive efficiency.

Aya HQ | [Live Site](#)

3 Months

Frontend developer (Contract)

- Integrated complex RESTful and GraphQL API workflows, critically analyzing interface performance to ensure fast, responsive layout scaling across all devices.
- Collaborated in building the Aya Labs platform end-to-end, executing feature development in an independent, self-motivated startup environment.
- Integrated complex, data-heavy API workflows including dynamic graphs, data visualization charts, and analytics dashboards.

Ownage Fiditech LLC

2023 – 2024

Frontend developer (Internship)

- Assisted in building client-facing websites for Ownage, a web development agency serving multiple brands.
- Worked across several projects simultaneously, picking up exposure to different design systems and client requirements.

Abitto Global | [Live Site](#)

2022 - 2023

Frontend developer

- Assisted in the development and maintenance internal accounting software, improving financial reporting workflows and operational efficiency.
- Built responsive user interfaces and ensured consistency with business and user requirements.

2022 - 2023

Sirinu Token (Volunteer)

Frontend developer

- Built responsive UI components and contributed to frontend features within a collaborative development environment.
- Worked with project contributors to translate ideas into usable interfaces.

Iji Technoloies (volunteer)

Frontend developer

- Volunteered as a frontend developer on the project, building out pages and UI components, handling layout, styling, and ensuring the interfaces were responsive across devices

PROJECTS

Aedion Ai web app

Next.js, TypeScript, Next, GraphQL, Apollo client, shadcn

<https://aedion.ai/>

Aya Labs

Next.js, TypeScript, Next, GraphQL, Apollo client

<https://ayahq.com/labs>

Sehembz

Next.js, TypeScript, Next, GraphQL, Apollo client

<https://sehembztravels.com/>

Aedion Ai mobile app

React Native, Expo, NativeWind

[Apple Link](#)

[Google Link](#)

Zetabrent

React.js, TypeScript, Next, GraphQL, Apollo client

<https://zetabrenteducation.com/>

Abitto Ferry

Html, Css, Javascript

<https://abittoferry.com/>

CORE COMPETENCIES

Problem Solving & Debugging

Performance Optimization

Responsive & Mobile-First Design

Asynchronous Programming

State Management

Technical Communication

Frontend Architecture

API Integration (REST & GraphQL)

Remote & Cross team Collaboration

EDUCATION

University of Portharcourt

Accounting

Bachelor of Science

TECHNICAL WRITING

JavaScript Prototypal Inheritance

Simply put, Inheritance is mainly used to reduce code duplication. Instead of rewriting the same functional...
